EDUCATION

B.Tech – Artificial Intelligence & Data Science
Rajalakshmi Institute of Technology
Nov 2022 – Apr 2026
Final Semester Completed

SKILLS

Python - Libraries: pandas, matplotlib, NumPy, SciPy, Scikit learn

LangChain - Libraries: Document loaders, prompt templates, output parser, vector store, retrievers

SQL - Tools: MySQL **Commands:** DDL, DML **Syntax:** constraints, clauses, join

LLMs: Schema control, JSON formats, context optimization

Prompting: Token optimization, role defining, function calling, hallucinate control

RAG: Embedding models, chunk sizing, vector databases, retrieval tunning

AI Agents: Tool orchestration, memory design, execution control

GitHub: Branching basics, GitFlow basics, GIT commands

Power BI: DAX, data visualization, interactive graphs

Claude: skills scripting, connector handling, artifacts

Soft Skills: Effective communication, Operation planning, AI Tools, Requirement Analysis,

PROJECTS

Airline Revenue Analysis under Flight Management System – Intern Project 2 months

- **Problem:** High variability and unpredictability in operational costs.
- **Role:** Developed revenue analysis dashboards for cost estimation.
- **Technologies Used: Mockaroo, MS Access, Power BI**
- **Results:** Built interactive dashboards in Power BI to visualize flight performance, revenue, operational costs, tax and profit before and after tax. Link

Handwritten Invoice Extraction System – Intern Project 2 months

- **Problem:** Fluctuates while extracting scanned partially machine and handwritten invoices.
- **Role:** Build RAG pipeline to rectify hallucinated result.
- **Technologies Used: Google Colab, LangChain, Ollama, VLM, LLM, Prompt templates**
- **Results:** Optimized template matching techniques ensures 80% key value pairs text for reliable information retrieval. Link

Excel Entry Automation – Freelance 20 days

- **Problem:** TechSlice Solutions receives purchase orders via email and performs manual data entry in Excel which is time consuming and occasionally leads to errors.

- **Role:** Created data entry automation workflow.
- **Technologies Used: n8n, Azure Entra ID, OAuth authentication**
- **Results:** This Excel Entry workflow saves their 70% of time, reduces typo error and ensures consistency. Link

Cuttings Tools Lead Generator & Email Promoter – Freelance 20 days

- **Problem:** Manual lead generation and sales outreach for cutting tool businesses was time consuming, requiring extensive effort to identify manufacturing companies, find decision makers and draft personalized emails.
- **Role:** Built an AI powered Lead Generation & Email Promotion platform for manufacturing sales outreach.
- **Technologies Used: Claude Artifacts, Claude Web Search, React, Anthropic API, LinkedIn Search, cache Storage.**
- **Results:** Automated end to end lead discovery and email drafting, generating 12–15 qualified leads per search, reducing manual prospecting effort, improving lead targeting accuracy and accelerating outreach for Tamil Nadu manufacturing companies. Link

RELEVANT INTERNSHIP EXPERIENCE

Data Analyst Intern – ENERGICA ADVISORY SERVICES Pvt Ltd – Hybrid 2025

- Worked on a flight management system under revenue analysis phase, supporting data driven decision making.
- Generated synthetic airline revenue data through Mockaroo to customize schema, KPI and data entity.
- Validated data accuracy and business logic, ensuring consistency in DAX calculation and referential integrity.

AIML Intern – LARSEN & TOUBRO, Information Systems Department (ISD) – On-site 2025

- Worked on intelligent document processing systems focused on Hand written Invoice Text Extraction using Qwen Vision Language Model and LLM.
- Structured extracted data into key value pairs for reliable information retrieval and document QA using Llama
- Conducted multiple test and trial experiments to evaluate accuracy and performance of the VLM.
- Developed preprocessing pipelines and implemented prompt template matching techniques.

CERTIFICATIONS

Python 3.x - Programming Course (Skillrack)

SQL - Basics Standard (Skillrack)

Data Analyst (Intern)

AIML (Intern)

LEADERSHIP EXPERIENCE

Data Analyst (Internship Team Lead)

- Led and mentored a team of 3 analyst members, ensuring clear direction, data records planning and arranged test and trails.
- Defined team workflows, assigned tasks based on individual strengths and streamlined collaboration
- Acted as the primary decision maker for analytical approaches and key strategical shifts
- Conducted regular reviews and feedback sessions to improve team vision and work quality
